**I** would like to tell you why I enjoy receiving the Catch 38 magazine in my mailbox. I look forward to the coupons; it's like getting money in the mail. The magazine is what it says it is, a magazine filled with great coupons and savings from local businesses. I have discovered places in the area I didn't even know existed before receiving the magazine. It is the one coupon magazine that I don't discard with the junk mail. I look forward to the coupons and also access the web site for more savings. Thanks so much for the savings and keep up the good work!

**I** enjoy receiving the Catch Magazine because it puts me in touch with the products and services available in my community. It is a great resource for finding new restaurants, beauty services, home improvement, and professional services. I save money with the many coupons, too. I look forward to receiving it my mailbox. Thanks.

**I** like Catch 38 because it delivers coupons for local businesses from food to fitness/health to home services. I thumb through your publication to see if there are any services that interest me or my family. The color presentation is very good on quality paper. The layout is good and easy to read. Thanks!

**I** thoroughly enjoy receiving your magazine, and always have - even when we lived in Cherry Hill, NJ. It keeps me up to date with what's new in the area, along with giving special promotions for various establishments. The vast ranges of businesses that are displayed in the magazine are helpful - anywhere from fitness centers to decorators to restaurants in the area. I am a coupon-cutter, so I certainly make use of many of the coupons in the book. Thank you so much for the job that you do to publish this.

**W**hat I like about Catch 38...Every month, I look forward to the Catch 38. The brightly colored images catch my eye when I retrieve the mail. I get excited at the thought of the savings that are inside, because you see, I LOVE a bargain.

Thank you,

**I** think the Catch38 magazine is a great resource for the best local bargains. It's also a nice incentive to visit newer businesses and existing businesses that we just haven't tried yet. Oh yeah, I like the fact that my wife really likes it too.

Thanks,

**I** look forward to receiving my Catch Magazine because it allows me to learn more about interesting establishments in my area that I may not be aware of. Sometimes I can visit these new places at discounted prices and perhaps find a new favorite for me and my family to enjoy.

**H**ello, I look forward to receiving the Catch 38 magazine. I usually try new places when a coupon is offered. I'm often amazed at ads for places that are right here in my town that I didn't even know existed! I'm glad the local businesses advertise this way. Catch 38 uses cheerful colors, a good layout and nice paper quality. Keep it coming!

**I** like receiving Catch Magazine mainly because of the food/restaurant coupons. I live in a complex with many elderly people. We all have limited income. We can enjoy a lunch/dinner together once in awhile by taking advantage of the BOGO, 50% off or dollars off coupons.

**W**hat I like about the Catch Magazine is the versatility of the businesses advertised. I like knowing I have numerous options to go out and eat with the family without having to drive forever. Even though most places have coupons or deals of the day, most of us are not aware of them unless we go to that particular place. Your catalog shows us these great deals available to us while educating the public of numerous local businesses previously in the background. I feel this magazine is a fantastic outlet for local business owners to get their names out there in the spotlight!

**I** would like to say that Catch Magazine includes advertisements for great local services and promotions.

We followed the advertisement for Granite Transformations, were pleased with the company and after careful consideration ordered our counters. We are very pleased with our new counters! We found the company to be superior to other granite options and would definitely recommend the brand to other customers.

**I** like receiving the Catch 70/73 magazine because there are many ads for local businesses, many of which I may not know exist and certainly would not visit without the added coupon incentives.

It is also easier to peruse as it is not as bulky as another coupon magazine, therefore the businesses stand out more. Bring on more savings!

Thank You Catch!

**W**hat's not to love about Catch Magazine? My kids call me the coupon queen, so I just love getting the coupons directly in my mailbox.

I sit with my cup of tea, and go through the Magazine the first time just looking at all the great bargains. Then I get out my scissors and cut out all of the coupons that I want to use. Let the savings begin!!

**C**atch Ads has been a great help for myself and my family. We were able to find many resources for fixing up our house. For all of our home improvements we have we were able to find contractors out of the magazine. They have all been very professional. I have also recommended them to other people as a matter of fact once I am done going through the book I pass it along to my folks. Keep up the good work and I'm sure I'll be using the magazine for a long time.

**J**ust received your Catch, February Issue, and am glad to see the local advertisements for business in my vicinity. With the high gas prices in effect it helps to economize by doing business with local business, saving time and money..... And the coupons are a plus. Keep up the good work.
